

PUMPING ARRANGEMENT Endorsement.

Shipbuilders: Messrs. *Fredriksstad* ~~has~~ *tested* Yard No. *287 & 289*

Engineers: Messrs.

Engine No.

Owners: Messrs.

Diagrammatic
It is submitted that the plan of
Pumping
Pumping Arrangement *in the machinery space*
merits approval, provided the arrangements be as
shown and amended on the plan and the remaining
requirements of Sections 20 and 34 of the Rules (1936-7)
be complied with so far as they are applicable.

*It is recommended that a non return valve
be fitted in the line connecting the oil fuel tank
suction and filling line with the circulating water
line in order to prevent the possibility of oil fuel
passing into the cooling water system.*

See 5/2
Return ~~plan~~
