DRAFT CERTIFICATE.

THIS IS TO CERTIFY that the steel Boiler made by A/S Fredrikstad Mek. Verksted, Fredrikstad, for the steel screw steamer "VIVA", Yard No.287, and marked as below, has been surveyed during construction by the undersigned. The material has been tested by the Norske Veritas and accepted by Lloyd's Register; the scantlings are in accordance with the Rules of Lloyd's Register for a working pressure of 220 lb. per square inch, and the workmanship is good. The Boiler having been tested in the presence of the undersigned on the 25th February, 1938, by hydraulic pressure to 380 lb. per square inch, showed no signs of weakness, and was found tight and sound in every respect at that pressure. The working pressure is not to exceed Two hundred and twenty lb. per square inch.

Mark on Boiler.
