

"CAULONIA"

part of the 16th January, 1941.

Dear Sirs,

S. I have to acquaint you that the case of the trawler "CAULONIA" (Hull Report No.50654) has been under consideration today in connection with the arrangements now in force for the suspension of Special Surveys.

It is noted that repairs are required to wasted deck stringer plates (starboard side) in way of the cross bunker at the first opportunity, and I shall be glad to learn whether in your opinion these plates are considered efficient until the end of September next without further examination or whether they should be dealt with now or further inspected with a view to the postponement of the repairs.

I have to add that provided these plates are efficient no further examination will be required by the Committee in connection with the suspension of the Third Special Survey No.1 until September next, that is, twelve months from the date of the survey becoming due.

I am, Dear Sirs,  
Yours faithfully,

pro Secretary.

The Surveyors,

HULL.
