MEMORANDUM

R. Sept.

From: **LLOYD'S REGISTER OF SHIPPING, HIGH CLOSE, WOKINGHAM.**

(Ref. H.)

To The Surveyor(s) at **ARUBA.**

Date: 15th March, 1945.

Vessel's Name: **M.S. "AMPETCO".**

Question: With reference to the entry in your return of vessels under survey for the Quarter ended September last, I shall be glad to learn how this case now stands as the vessel's name does not appear on your Quarterly Return 4 or December.

I think it well to point out that the vessel became due for General Examination and Donkey Boiler Survey at the end of November last and that the hull Certificate expired on the 31st October.

Answer: In December it was decided by the Owners <sup>LLR</sup> Aruba, N. W. I. Date: 30 April, 1945. not to proceed with repairs to this vessel as the cost would not be justified. The question of disposal has been in abeyance until this month, the vessel now being handed over to the U.S.N. for target practice. You can definitely write this vessel off as scrapped.
