Lloyd's Register of Shipping,

71, Fenchurch Street, E.C.3.

Enclosure.

Ref:- AR.Su/U.

29th April, 1938.

Dear Sirs,

I duly received your letter of the 20th instant, with plan, in triplicate, advised therein of fuel oil piping arrangement in the machinery space proposed for your Yard Nos. 1391 and 1419, and I have to inform you that this plan will be approved provided the arrangements be as shown and amended thereon, and the remaining requirements of Section 20 of this Society's Rules (1937-8) be complied with so far as they are applicable.

I may add it is noted from the plan that the oil fuel supply pipe to the vertical boiler is coiled round the boiler uptake, forming a heater, and I have to point out that this arrangement is not considered desirable and could only be accepted provided the pipe be of solid drawn steel of heavy gauge and no joints be fitted on this line immediately above the boiler.

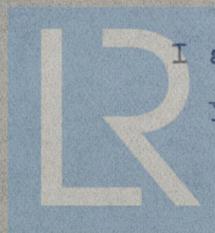

One copy of the plan now approved is returned herewith.

I am, Dear Sirs,

Yours faithfully,

Messrs. F. Schichau, G.m.b.H.,

ELBING.
