

Steel Screw Motor Vessel "EROS", Messrs. Helsingors  
Jernskibs og Maskinbyggeri No. 266.

-----

Dimensions:- 350 x 50.5 x 31.75 to upper deck.

23.25 21.23 to 2nd deck.

Class:- 100A1 with freeboard.

-----

This vessel is a sister ship to the same Builders' No. 253 (SLESVIG)  
which was built to class with the British Corporation. In  
submitting the plans the Builders <sup>asked</sup> ~~recommended~~ that the minimum  
modifications to riveting, scantlings &c. might be made so as  
to avoid work in the drawing office and to the moulds. This  
was kept in view in dealing with the plans, the scantlings  
and arrangements being adjusted accordingly. 5 bulkheads  
instead of 6 are fitted, and a notation will require to be made  
in the Register Book in respect of the bulkheads.

  
13th October, 1941.
