4th May, 1923.

Messrs Lloyd's Register of Shipping,  
Greenock.

Dear Sirs,

s.s. No. 352.

With reference to the above vessel building on our behalf by Messrs Robert Duncan & Co. Ltd., Port-Glasgow, we find that for the purpose of our coal trimming arrangements it is necessary to fit a watertight bolted plate in the coal trunks on bulkhead 91 between upper and main decks, subject to the approval of Lloyd's being obtained for same, and the details being to the approval of their Surveyors,

Yours truly,

For WILLIAM S. MILLER & CO.
