Ref. J.A.F. A.

24th December, 1917.

M.

Dear Sirs,

*Barclay Curle 540*

With reference to your letter of the 18th instant, respecting the S.S. "POLYCARP", I now have the pleasure to acquaint you that on the 3rd instant the Society's Surveyors at Glasgow were informed that the proposal to coat the inner surface of the shell plating within the double bottom of this vessel with material supplied by Messrs. Cairns Bitmo Co. Ltd., would be approved except in the Engine and Boiler spaces where the bottom should be coated with Portland cement in the usual manner.

I am, Dear Sirs,

Yours faithfully,

Messrs. The Booth Steam Ship Co. Ltd.,  
(Construction Department),  
Cunard Building,  
LIVERPOOL.

Assistant to the  
Secretary.
