

J. J. "Polycarp"

Barclay Curle No 540

It is submitted the Booth Steam Ship Co. Ltd., be informed that on the 3rd instant the Society's Surveyors at Glasgow were informed that the proposal to coat the inner surface of the shell plating within the double bottom of this vessel with material supplied by Messrs. Cails Bitmo Co. Ltd., would be approved except in the Engine and Boiler spaces where the bottom should be coated with portland cement in the usual manner.
