Enclosures.

Reference

Dear Sir,

We beg to forward for the consideration of the Committee Plan No. 38-1791, in triplicate, of a 60 gallon fuel service tank for a 3VSOZ (22 $\frac{1}{2}$ BHP) generating and compressor set proposed by Messrs Ruston & Hornsby Ltd., Lincoln.

Messrs Rustons state that this plan has been submitted to the Board of Trade and their approval obtained but unfortunately they overlooked the fact that the set also came under our survey.

The tank is complete, ready for testing and the welding has been done by the Electric process.

We are, Dear Sir,

Yours faithfully,

G. M. Cassidy

pro Surveyors.

The Secretary,
LONDON.
