Enclosures.

Ref:- JWS/EAP/11/9.

24th August, 1938.

Dear Sirs,

Messrs. Wm. Denny & Bros., Yard No. 1333.
Engine No. 1083.

E.

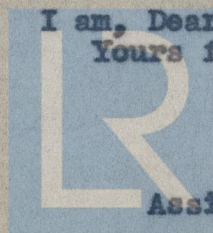

I duly received your letter of the 15th instant, forwarding plan, in triplicate, of thimble tube feed water heaters proposed in connection with the above vessel, and I have to inform you that this plan will be approved for a working pressure of 60 lb. per sq. inch, provided the heaters be constructed under the usual conditions of survey and testing, and the hydraulic test pressure be not less than 132 lb. per sq. inch.

It is observed that these heaters will be manufactured at the Works of Messrs. Abbott & Co., Newark-on-Trent, and the Society's Surveyors at Sheffield are accordingly being requested to give the matter the necessary attention.

One copy of the plan now approved is returned herewith, and I take the opportunity of enclosing the usual Survey Request Form for completion.

I am, Dear Sirs,
Yours faithfully,

The Clarkson Thimble Tube Boiler
Co. Ltd.,
613, Australia House,
Strand,
W.C.2.
