ENCLOSURES.

13th April, 1938.

Dear Sir,

E.

I return herewith one copy of the plan, forwarded with your letter of the 6th instant, of General Pumping Arrangement for Messrs. Wm. Denny & Bros Ltd. - Yard No.1353, and have to acquaint you that this plan will be approved, provided the arrangements be as shown and amended thereon and the remaining requirements of Sections 20 and 34 of the Rules, 1937-38, be complied with so far as they are applicable.

With regard to Empty Space - 3, it is noted that the bilge suction to this compartment is situated below the oil fuel tanks, where access to the pipe and bilge strum would be very difficult. I shall therefore be glad if the Surveyors will discuss this matter with the Builders with a view to arranging, if practicable, for suitable means of access to be provided, or alternatively, for the suction to be placed immediately forward of the oil fuel tanks.

The approved plan of midship section is also returned herewith.

I am, Dear Sir,

Yours faithfully,

The Secretary,

GLASGOW.
