

PUMPING ARRANGEMENT Endorsement.Shipbuilders: Messrs. *Wm Denny & Bros Ltd*Yard No. *1333*

Engineers: Messrs. "

Engine No.

Owners: Messrs.

It is submitted that the plan of *General*
Pumping Arrangement

merits approval, provided the arrangements be as
shown and amended on the plan and the remaining
requirements of Sections 20 and 34 of the Rules (1937-8)

be complied with so far as they are applicable.

*With regard to Empty Space-3 it is noted that the
bilge suction to this ~~space~~ compartment is situated
below the oil fuel tanks where access to the pipe
& bilge strum would be very difficult. It is
considered therefore that the Surveyors should
discuss this matter with the Builders with a view
to arranging, if practicable, for suitable means
of access being provided or alternatively for the
suction to be placed immediately forward of the oil
fuel tanks.*

Return plan. (also reference plan)

Retain copy.
