9th August, 1938.

Dear Sirs,

E.

Messrs. Wm. Denny & Bros., Ltd.  
Yard No.1333 - Engine No.1083.

I duly received your letter of the 2nd instant, forwarding a plan, in triplicate, of Automatic Feed Control proposed by Messrs. Laidlaw, Drew & Co. Ltd., Leith, for the above vessel.

This plan has been examined, but in order that full consideration may be given to the appliance I shall be glad if you will forward to this Office a full description of the operation of the device, together with particulars of the working pressure proposed and of the scantlings and material of the headers and pipes.

At the same time I shall be glad to learn what experience, if any, the Firm have had with this type of feed control for marine service.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,  
LEITH.
