

"WAIRUNA" & "WAIOTAPU".

It is understood from Mr. Lyndsay of the Ship Repair Division of the Ministry that the "WAIRUNA" is now in service as a Store Ship in the Gareloch. The future employment of the "WAIOTAPU" is still under consideration and it is probable that she also will be used as a Storage Vessel.

As regards the question of class maintenance Mr. Lyndsay suggested that when a decision has been taken in regard to the "WAIOTAPU" the matter of classification should be the subject of a written communication to the Ministry.
