Dear Sir,

"SEINE".

We would refer to our letter of the 29th inst., regarding this vessel, and have now made arrangements to get this vessel back to Holland rather more directly than was originally planned. She is scheduled to leave Plymouth this morning for Southampton to take a tow to Flushing, whence she proceeds in ballast to Rotterdam, and it is then the owners' intention to take her out of service. We feel confident that this arrangement will meet with your approval.

Yours faithfully
