

MESSRS. THE MONMOUTH SHIPBUILDING CO'S S.S. NO.368

Equipment letter "t"

A letter has been received from the Newport Surveyors stating that the stream anchor is 20 lbs in weight below the rule requirements.

The weight of the anchors as required by the Rules and as supplied is as set forth below:-

	<u>Rules Table 31</u>	<u>Supplied</u>
1 Bower Anchor stockless	42. 0. 0.	42. 2. 7.
	42. 0. 0.	42. 1. 14
	<u>35. 2. 0.</u>	<u>36. 1. 0</u>
Total weight of bower anchors	<u>119. 2. 0.</u>	<u>121. 0. 21</u>
Stream anchor ex stock	11. 0. 0.	10. 3. 8
Kedge " " "	<u>5. 1. 0</u>	<u>5. 3. 0.</u>
Collective weight of all anchors.	<u>135. 3. 0.</u>	<u>137. 3. 1.</u>

It will be observed from the above that whilst the weight of the stream anchor is 20 lbs below the rule requirements, the weights of the remaining anchors are in excess thereof, the collective weight of all the anchors being 2 cwts. above the rule requirements.

The weights of the anchors are therefore submitted for the favourable consideration of the Committee for the figure 1.
