Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

1st December, 1938.

Dear Sirs,

E. I duly received your letter of the 22nd ultimo, with plans and catalogue advised therein, relating to the "Metro" sounding device proposed for Messrs. Burmeister & Wain's Yard No. 646.

The plans showing arrangements and details of "Metro" automatic sounding gauge, advised in your communication of the 8th ultimo, have now received consideration and will be approved provided the arrangements be as shown thereon, and the gauges be tested, after fitting on board, to your entire satisfaction.

In reply to the enquiry contained in your letter of the 8th ultimo I have to say that no exception will be taken to the use of these gauges on daily service fuel oil tanks and settling tanks provided the gauges be tested, after fitting on board, to your satisfaction.

Two sets of the plans now approved are being returned to your address under separate cover, and the plans and Maker's catalogue forwarded with your letter of the 22nd ultimo are being retained in this Office for purposes of reference.

Yours faithfully,

The Surveyors,

COPENHAGEN.

On the
14th floor.
