14th November 1938.

Dear Sirs,

E.

I duly received your letter of the 8th instant, with enclosures advised therein, respecting the "Metro" sounding gauge proposed for Messrs. Burmeister & Wain's Yard No.646.

The particulars furnished have been examined, but I have to inform you that before approval can be given to this sounding device it is desired that you should visit the Maker's Works and report upon the construction of the apparatus.

I shall also be glad if you will state whether you have any personal knowledge of the reliability of this gauge under working conditions.

The plans are being retained pending the receipt of a further communication from you.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,

COPENHAGEN.

Secretary.
