

## Lloyd's Register of Shipping,

Tollbodgaten, 27,

Oslo, 7, 23rd September 1939.

Enclosures.

Dear Sir,

Referring to your letter of the 8th instant and our cable and letter of yesterday, we beg to enclose herewith a plan in duplicate of a new donkey boiler to be made by Messrs. Glommen Mek. Verksted for the M/S "HELLESUND".

The boiler is practically similar to the previous boiler, being slightly smaller in diameter, with the same scantlings; the manhole compensating plate and fittings will now be riveted on.

As the matter is rather urgent we shall be glad if you will kindly cable the approval.

We are, Dear Sir

Yours faithfully

The Surveyors  
*Huide*

THE SECRETARY

LONDON.
