ENCLOSURES.

1st March, 1937.

Dear Sirs,

I am in receipt of Mr. Roli's letter of the 27th ultimo enclosing a plan, in triplicate, in connexion with a proposal to shorten Nos. 1 & 2 hatches and to cut down the hatch coaming to 32" and plate over the present beams, also to fit doublings in way of the hatch corners of the Steamer "SAN CRISTOAL MARTIR".

With regard thereto I have to state that the proposed alterations as shewn on the plan and in your letter will be approved, provided the existing pillars at the forward end of the hatches be moved to the new position of the hatch corners, and the hatch sides be provided with horizontal stiffeners and supports as per Rule.

As desired, I have wired you to this effect as per copy of translation herewith.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,

OSLO.

P.S. Two copies of the plan are returned herewith, and the remaining copy is being retained for record.
