Date: 24th September 1945.

To: The Secretary  
Lloyd's Register Of Shipping  
High Close,  
Wokingham, Berks.

Dear Sir,

I enclose reports covering the Surveys held in dry dock at this port on the following vessels:

M/S	"FLEMHUDE" NO PAPERS - U.S. NW 2318. DKC 9582	
M/S	"STEINGRUND" not in R.R.	
U.S. ROT. 7546	S/S "THALATTA"	now Empire Tagaya
M/S	"GABELSFLACH" not in R.R.	
S/S	"WESERBERG" no papers U.S. NW 10.845	
S/S	"HEIDBERG" not in R.R.	

These vessels were examined in dry dock on various dates, and issued with certificates stating the parts examined, as now detailed, but as no arrangements had then been made for Surveys to be held, and no proper report forms were available the certificates are merely a record of parts seen, issued by the Ministry of War Transport.

In view of more recent developments I think it well to forward the surveys detailed on the appropriate forms in order that they may be counted as a part of the General Examination and Freeboard Surveys which are, no doubt, being carried out in the UNITED KINGDOM, and, as you will see, have charged fees accordingly.

I am, dear Sir,

Yours faithfully

*F.N. Sutcliffe*
