Reference

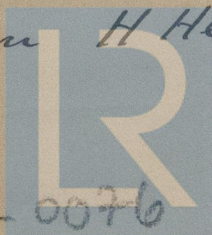

Oil Engine Lodonian.

Dear Mr Milton

Confirming our phone conversation,  
provided on trial the Douhey Boiler be  
found able to supply steam for the Aux<sup>y</sup>  
compressor & the other requirements. In my opinion  
under the present circumstances, the proposal to  
supply Piston Rings, gear for Remchalling Connecting  
rod ends & a high pressure cooling coil, might  
be favourably entertained, subject to  
the pistons being forwarded at a later date to  
Canada.

Yours faithfully

John H Heck
