Shipbuilders: Messrs.

S.S. "MEERKERK"

Yard No.

Nº 30905. R.B.

Engineers: Messrs.

Engine No.

Exhaust steam turbine installation.

It is submitted that the plan of arrangement of  
exhaust steam turbine installation merits approval  
for  
provided the whole of the work be to the Surveyor's  
satisfaction.

It is concluded that the sizes of the high speed pinion  
and coupling shaft are 170 mm and 130 mm diameter  
respectively and these sizes are in order if the equivalent  
I.H.P. of the exhaust steam turbine is 1590  
at 77 R.P.M. of the propeller as stated in  
the Secretary's letter of the 21st and 9th ult.  
W.J.F.  
13/12/33.

Return plan. Nº II / 3563.

Retain copy.
