

EX-GERMAN STEAMER "NIENBURG"

A Condition Survey on behalf of the Ministry of Shipping was held on this vessel on the 18th August, 1919, and subsequent dates, at Grangemouth.

A letter has been received from the Liverpool Surveyors enclosing a communication from Messrs. James Chambers & Co. in which they state that a great deal of opening out is being done on this vessel in dry dock, and they wish to know if a Surveyor could attend, and note what is being done with a view to a further six months' Survey.

It is submitted it should be pointed out to the Liverpool Surveyors that the first Condition Survey on this vessel was held in August, 1919, and the second six-monthly Survey will become due this month, and it is considered that this Survey might now be held.

The reports of the first Survey might be forwarded to the Liverpool Surveyors for their guidance.
