Enclosures.

4th June, 1942.

Dear Sirs,

F.

I enclose for your information copies of letters which have been exchanged between this Office and the Owners of the steamer "BALTEAKO", in regard to the General Examination for maintenance of class, a survey for the renewal of the Load Line Certificate which expired on the 19th April last and the Boiler Survey. In the circumstances, I shall be glad if you will make the necessary arrangements for these matters to receive attention, having due regard to the remarks contained in the first paragraph of the Owners' letter of the 2nd instant.

It will be observed that a new propeller is stated to be at present in transit to Gibraltar, and in this connection I may say that the Society's Surveyors at Aberdeen recommended in June last that owing to the wasted condition of the blades the propeller should be renewed at the first opportunity.

I think it well to enclose a print setting forth the requirements of the General Examination.

I am, Dear Sirs,  
Yours faithfully,

Clerk to the  
Classification Committee.

Messrs. Smith Imossi & Co.,  
Lloyd's Agents,  
GIBRALTAR.
