S/S Coronada

Dear Sir,

This will acknowledge yours of the 20<sup>th</sup> Sept.  
and thank you for the concentration which is  
being applied to the issues :—  
The enquirers at Rio were advised at an  
early stage of the negotiations that dry docking  
might be an essential part of the A.B. Conf.  
They are very anxious to get the ship soon and  
consequently desire the essential operations to  
be reduced to a minimum. Your letter is  
being forwarded to my colleagues who are  
conducting the negotiations. Yours faithfully  
E. C. Shankland
