## Enclosure.

Dear Sir,

In reply to your classing letter of the 20th instant respecting the Trawler "IWATE", we beg to confirm that breaking tests were carried out on the steering chains, the breaking strain being 24 tons. We have also to confirm that we have sighted the certificate of test and it is regretted that this was not made quite clear in our report.

We should mention that we are usually furnished with a certificate, as per enclosed specimen, which does not shew results of breaking tests and it is for this reason that we give only the certificate number and proof strain on our report.

We shall be glad if you will be good enough to return the enclosed document in due course.

We are, Dear Sir,  
Yours faithfully,  
The Surveyors,  
Per:-

The Secretary,  
LONDON.
