Dear Sirs,

Our Engine No. 672; Messrs. Cochrane & Sons Ship No. 1210.

We acknowledge receipt of your letter of the 19th. inst.,
returning our drawings showing shafting and oil fuel arrangement
for the above vessel, with your approval, for which we thank you.

With regard to the fire extinguishing valve, this is fitted
to a branch below the seat of the auxiliary stop valve, and is,
therefore, in direct communication with the boiler, irrespective
of the auxiliary stop valve.

Yours faithfully,

FOR AMOS & SMITH, LIMITED,

A.S. Turner
DIRECTOR.
