

COPY.

Lloyd's Register of Shipping,

71, Fenchurch Street, E.C.3.

Enclosure.

6th July, 1939.

Dear Sirs,

E.

I return herewith one copy of the plan, forwarded with your letter of the 24th ultimo, of cylindrical multitubular boiler No.672 proposed by Messrs. Amos & Smith Ltd., and I have to inform you that this plan will be approved for a working pressure of 200 lb. per sq. inch, provided the boiler be constructed under the usual conditions of survey and testing.

The Steel Testing Surveyors should be advised regarding the tensile strength of the shell plates, butt straps and girders, viz:- 29-33 tons per sq. inch.

I shall be glad if you will ascertain and let me know the name of the Builders and the Yard Number of the vessel for which this boiler is intended.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,

HULL.

Secretary.
