Boiler
endorsement

Shipbuilders: Messrs.

Bochane

Yard No.

1210

Makers: Messrs.

AMOS & SMITH LTD

Boiler No.

672

It is submitted that the plan of *cylindrical multitubular* boiler merits approval for a working pressure of *200 lbs* per sq. *inch*, provided the boiler be constructed under the usual conditions of survey and testing.

The Steel Testing Surveyors should be advised regarding the tensile strength of the *shell plates, butt straps & girders*

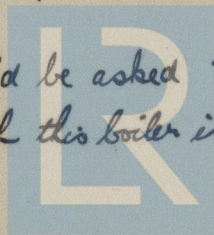

It is 6/11 viz:- *29-33 tons/sq"*

The surveyors should be asked to state the Yard No of the vessel for which this boiler is intended.

Return plan *1.*
