# Lloyd's Register of Shipping,

71, Fenchurch Street, E.C.3.

15th March, 1948.

Dear Sirs,

Re: m.s. "Arendskerck"  
-----

E

I am in receipt of your letter of the 1st instant relating to the above vessel, the contents of which have been noted.

With regard thereto no exception will be taken in this instance to the omission of Makers' Test Certificates for the essential motors and 30 kW generator enumerated below, provided the constructional details of the equipment comply with Rule requirements and that the motors are to your satisfaction when tested under working conditions on the vessel.

In the case of the 30 kW generator you should witness a "heat run" on this machine on the vessel and verify that the temperature rises are in accordance with Rule requirements.

One oil trim pump  
Two cooling water pumps  
One ballast pump  
Two Diesel oil cooling pumps  
One 30 kW harbour generator

Yours faithfully,

The Surveyors,  
Rotterdam.

Secretary,

2020
