

W306-0098

S.S. BRITISH LADY^{II}.

Mr. Griffiths of the Ministry states that the negotiations in connection with the disposal of this vessel for scrap are likely to be completed in the near future. Correspondence is at present proceeding with the British Iron & Steel Corporation.

Mr. Downie of the British Tanker Co. Ltd., of whom enquiry has also been made, has promised to advise this Office as soon as the position is sufficiently advanced to warrant the submission of the case to the Committee for omission from the Register Book. This, he anticipates, will be within the next week or so.
