

S.S. "BRITISH LADY".

(Validity of Examinations (mod) 6, 45 expires 6, 46.)

Mr. Downie of the British Tanker Co. Ltd.,
states that this vessel is laid up in the Tyne
and is no longer used for storage purposes. Mr.
Downie has promised to advise any change of
circumstances but it is unlikely that the vessel
will be used again.

The question of scrapping her is likely to
be settled when the price of scrap improves.
