Asst. 30  
LONDON

Reference

Dear Sir,

I beg to enclose herewith a sketch of the intermediate shaft couplings for Philip's No. 847 as now machined.

On checking it with the approved plan I found that it had been altered and requested the builders to give me an exact sketch for re-submission.

I shall be glad to know if the alterations can be approved.

I am, Dear Sir,

Yours faithfully,

*Thomas Miller*
