1 plan

25th August, 1937.

The Secretary,
Lloyds Register of Shipping,
71, Fenchurch Street,
London. E. C. 3.

Dear Sir,

                    Yacht No. 847.
        We beg to refer to approved Drawing No. 10650.S.
Shewing details of Cast Steel Stem proposed for the above Yacht.

        We have asked several foundries both British and
Continental for quotations, but are unable to obtain an offer,
due we understand to the great difference in section of material
in the two ends of the casting, and the comparatively long length
and the risk thereby entailed in obtaining a sound casting.

        We therefore propose to make the casting in two lengths,
joined together at the butt by a double riveted strap on the
inside, and the outside butt welded.

        We enclose a print shewing this proposal and shall be
glad of your concurrence as soon as possible.

W307-0120 ½

Lloyds Register of Shipping.

No. 2.

          We also await approval of the drawings of Fuel,
Water and Ballast Tanks, also Stern Post and Rudder submitted
to you for approval on the 12th inst.

          Thanking you in anticipation of your early attention.

          We are,

               Yours faithfully,

                              FOR PHILIP & SON, LIMITED.

enc.   .... Secretary.

Referred to the Chief Ship Surveyor.
