24th September, 1937.

Dear Sirs,

M.

to  
I have/acquaint you that Mr. Peter Crerar of Crieff,  
Perthshire, called at this Office today, and stated that he  
proposed to have a steel yacht, 83 ft. in length overall, built  
at Delfzijl.

It was explained to him that the constructional plans  
would be dealt with in Rotterdam.

He stated that he would pay regular visits to the  
vessel during construction, and it was thereupon suggested to  
him that he should, in the first instance, call at your Office  
in connexion with the matter.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,  
ROTTERDAM.
