23rd June, 1938.

Dear Sirs,

We have your letter of the 17th instant enquiring about the arrangements we propose making for the Boiler and Screwshaft Surveys on the s.t. "MARCONI" due at the end of last month.

We have four trawlers - the "MARCONI" "FARADAY", "OEM" and "GIRARD" now laid up under the Voluntary Scheme, and do not propose to carry out any surveys due on these ships during their laying-up period. If these ships are put into commission again, we will communicate with you and make some arrangements regarding the surveys.

Yours etc....
