

COPY

22nd January, 1947.

Dear Sirs,

H. & F.

I have to acquaint you that a proposal to postpone the outstanding survey requirements in the case of the steamer "ZEPHYROS" until the vessel's return to Antwerp or Rotterdam by the end of next month has recently received approval.

Full particulars of the case will be sent you later should it be decided to carry out the necessary work at your port and in the meantime I think it well to inform you that the terms of Circular No. 1800 are applicable. In view of the Managers' request, however, to submit the vessel to annual examination only they have been informed that although the opening up should be as required for the appropriate Special Survey, repairs may be limited to those required for twelve months' maintenance.

Yours faithfully,

The Surveyors,
ROTTERDAM.

pro Clerk to the
Classification Committee.
