

Tug "SECURITY"

On the 17th October 1947 the Ministry requested to be supplied with the report of last survey in dry dock and this was sent to them on the 24th October 1947. (L 112311)

On the 30th December 1948 they requested to be supplied with a copy of the report of Special Survey - 3rd No.3, held in 1942, with copies of reports of any other surveys carried out by the Society's Surveyors subsequent to 1942.

The "complete" Wreck Case, which had been filed in the basement, was brought out and copies of the reports requested by the Ministry were supplied.

Unfortunately, all the reports were not with the "complete" Wreck Case as owing to the ship having changed her name, three reports were still with the papers under the name of "STOKE" waiting to be indexed and permanently filed away.

4th March, 1949.
