

## Lloyd's Register of Shipping.

Port

NEWCASTLE/ON/TYNE

30th November, 1946

THIS IS TO CERTIFY that

C.C. Young and E. Wilson,

the Undersigned Surveyors to Lloyd's Register of Shipping,  
did at the request of the Owners' Representatives, survey  
the steamer "BRITISH TOMMY", 1411 gross tons of Swansea,  
whilst afloat in the River Tyne on the 29th instant.

The following parts of machinery were examined:-

The starboard boiler and auxiliary machinery  
under working conditions.

We are forwarding the report to the Committee  
recommending that the vessel remain as now classed in  
the Register Book without fresh record of survey, subject  
to the General Examination already partly held being  
completed before resuming normal trading, and also subject  
to items outstanding as previously recommended, the vessel  
being now, in our opinion, fit to proceed to Antwerp in  
ballast, where she is to be broken up.

*C.C. Young* *E. Wilson*  
SURVEYORS TO LLOYD'S REGISTER  
NEWCASTLE/ON/TYNE.

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:-

"While the Committees of the Society use their best endeavours to ensure that the functions of the Society are properly  
performed, it is to be understood that neither the Society nor any Member of any of its Committees is under any circumstances  
to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any  
entry in the Register Book or other publication of the Society, or for any error of judgment, default or negligence of any of its  
Committees or any Member thereof, or the Surveyors, or other Officers or Agents of the Society."
