Particulars of Examination and Repairs (if any) Fastenings & Boiler repairs

Surveys, when held, must be reported in detail and seriatim in the terms of the Rules. State clearly the Repairs, if any, and, in detail, the nature and extent of Examinations and subsequent Repairs. Repairs on of Damage (the cause of which must be stated) should be separated from Repairs due to other causes; and being detailed in the body of the report, should be briefly summarised at the end of the report. State also the initials of any letters respecting this case.

In cases where the Surveyor has not made a special damage report he is required to state whether he has made his services for this purpose, and why they were declined.

Has a special damage report been made by anyone else? If so, by whom? ✓

Work done:- Vessel placed in Dry Dock. All outside fastenings examined and found in good order.

Boiler Repairs:- Lo Port Boiler. Front end plate cracked in knuckle. A piece of plate, approximately 2'-8", was cut out and patched as shown on attached print.

General Observations, Opinion, and Recommendation:- The machinery of this vessel is eligible, in my opinion, to remain as now classed without fresh record of Survey.
