NEW YORK.

June 8, 1937.

Dear Mr. Hutchinson:

S/S "BULKOIL"
N.Ns. Rpt. 5002

Further to my letter of the 18th ultimo, I enclose plans covering the boilers, pumping arrangements and cargo pumping arrangements which have been fitted to this vessel.

Mr. Hudson has indicated on the pumping arrangements in the engine room the approximate position of the bilge suction. He states there are three fitted, one port, one starboard and one in way of the after well, all connected through manifolds to the bilge and ballast pump and the fire and bilge pump.

With kind regards,

Yours faithfully,

John S. Heath
