

TRANSLATION.

We beg to acknowledge the receipt of your letter of the 12th November respecting the classification survey of the yacht "ELLENI" and we note that you intend continuing this survey in a port at which one of the Surveyors of Lloyd's Register is stationed. We shortly expect a communication from you and we will submit the contents of your letter to our Head Office.

We take the liberty, however, to point out to you that it would be advantageous to you if you had the survey carried out at Marseilles as your vessel is at present lying at Monaco. The Society has two Surveyors at Marseilles and consequently the survey of your vessel would not cause any travelling expenses. Besides, if arrangements were made before hand with our Surveyors at that port with a view to carrying out the survey, there would also be for you a saving of time.

Yours etc.
