5th November, 1936.

Dear Sir,

E.

M.A.N. Diesel Engines for Messrs.  
Thornycroft's Yard No.1172.  
-----

With reference to my letter of the 13th ultimo, respecting shafting proposed for the above engines, I have to inform you that a letter dated the 26th ultimo has been received from Mr. E. Milton Sellex, Agent for Great Britain of Messrs. M.A.N., intimating that he has received a communication from Messrs. Thornycroft in which they state that the rating of these engines will be 180 B.H.P. at 380 r.p.m.

Mr. Sellex states that he has requested Messrs. M.A.N. to confirm this rating to this Office, but no reply has yet come to hand from them. I shall therefore be obliged if you will take the matter up with the Firm, with a view to confirmation being obtained.

I am, Dear Sir,

Yours faithfully,

V.F.J. Sdrowok, Esq.,

AUGSBURG.
