14th October, 1936.

Dear Sirs,

E.  
With reference to your letter of the 29th ultimo and mine of the 3rd instant, respecting shafting proposed for the main engines of Messrs. John I. Thornycroft & Co's Yard No.1172, I have to inform you that the Society's Surveyors at Augsburg have now submitted a plan proposed by Messrs. M.A.N. showing details of shafting for these engines.

The particulars of the revolutions and power of these engines, as stated on the plan forwarded by you, differ materially from those given with the plan now submitted by Messrs. M.A.N., which are as follows:-

B.H.P. .... 150.  
R.P.M. .... 325.

In these circumstances, I shall be glad if you will confer with Messrs. Thornycroft & Co., in order to obtain confirmation of the particulars.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,  
SOUTHAMPTON.
