Ipswich, 5th January 1922

Enclosure.

Dear Sir,

In reply to your letter of the 4th instant, respecting the port engine which Messrs. Vickers-Petters Ltd., have in hand for Messrs. Campbell & Nicholson's Motor Yacht No. 307. I enclose herewith test sheet of the trial of this engine which took place on the 28th November last, the engine worked satisfactory throughout the trial, but a little trouble was experienced with a slight leakage of gases by the saluminite nut on the electric torch spindle, it was arranged to have these defects made good, and the torches tested on the 2nd Engine.

I would point out that it was not understood in your letter of the 22nd November last that a trial report was required, hence the delay forwarding same.

I am, Dear Sir,

Yours faithfully,

The Secretary,

LONDON.
