Lloyd's Register of Shipping,

71, Fenchurch Street, E.C.3.

14th March, 1947.

Dear Sirs,

S With reference to the classification of your steamer "WILLODALE", I beg to acquaint you that the Committee have had before them a report received from the Society's Surveyors at Barry of survey held at that port afloat on account of reported leakage in Nos.1 and 2 holds. Repairs were duly effected to tank side brackets and tank margin.

Having regard, however, to the fact that the vessel is now showing signs of her age and has not been submitted to Special Survey since 1936, the Committee must ask you kindly to arrange for her submission to the requirements of a full Periodical Special Survey at the expiry of the validity of her present "Examined" record in July next.

Yours faithfully,

Messrs. The Bromage
Shipping Co. Ltd.
200, The Exchange,
Mount Stuart Square,
CARDIFF.
