

It is submitted that
this vessel is suitable for
M/S "ABILITY"

Rpt. Lon (Ips) No 92281.

FE

is concluded the peak frames are angles, the diameter
the rivets through the frames + shell plating is $3/4"$,
at the fore peak tank, the ^{fore} bulkheads + decks
have been tested as required by the Rules, but the
surveyor should be requested to state if this
is so.
