Received by Chief Ship Surveyor

Received from Chief Ship Surveyor

VESSEL'S NAME Steel Sc. "ANGLO PERUVIAN" Rpt. Nwc. No. 86670

The remarks of the Chief Ship Surveyor are desired on this case for the consideration of the Classing Committee.

("The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—*Extract from Sub-Committee's Report, 24/5/32.*)

Nature of Survey

The S.S. No.1 became due 7.30 and a proposal to carry out same within the year of grace has been agreed to.

The Newcastle Surveyors now report the S.S. No.1 has been partly held by the examination of the bottom and rudder in dry dock.

Fractures in No.2 double bottom tank margins have been repaired by electric welding, additional gussets fitted and some rivets renewed in the top bar of the centre keelson. *BOTTOM COATED.*

The anchors have been converted to the Trojan bolted type and retested.

It is submitted action be deferred.
